## SST REWARDING AND BURNING SYSTEM

Set Space Token offers players and holders the opportunity to win while having fun with its large-scale burns and rewards mechanisms.

A system called Set Space Token Rewarding and Burning system has been developed in order to increase the value of the SST token, to prevent its value from decreasing and to reward BTS holders. The main purpose of the system is to reward the loyalty of Set Space Token holders with constantly valued tokens. While the developed large-scale burn mechanism contributes to the increase in the value of the token, the large-scale prize system is working on distributing the valued tokens to its holders.

Set Space Token Rewarding and Burning System, distributes SST tokens to its holders and burns the SST tokens through many way. The system has developed some special functions for its own purpose.
